BARMAG

Gear Metering Pumps for Spandex Products

For the highest level of quality

Precision, durability, resistance, and cost efficiency – the highest demands are made on the pumps in all areas. And this is exactly where customers benefit most from the many years of Barmag expertise: the appropriate materials, custom adjustments, and comprehensive consultation - Barmag Pumps offer the perfect solution for every application.

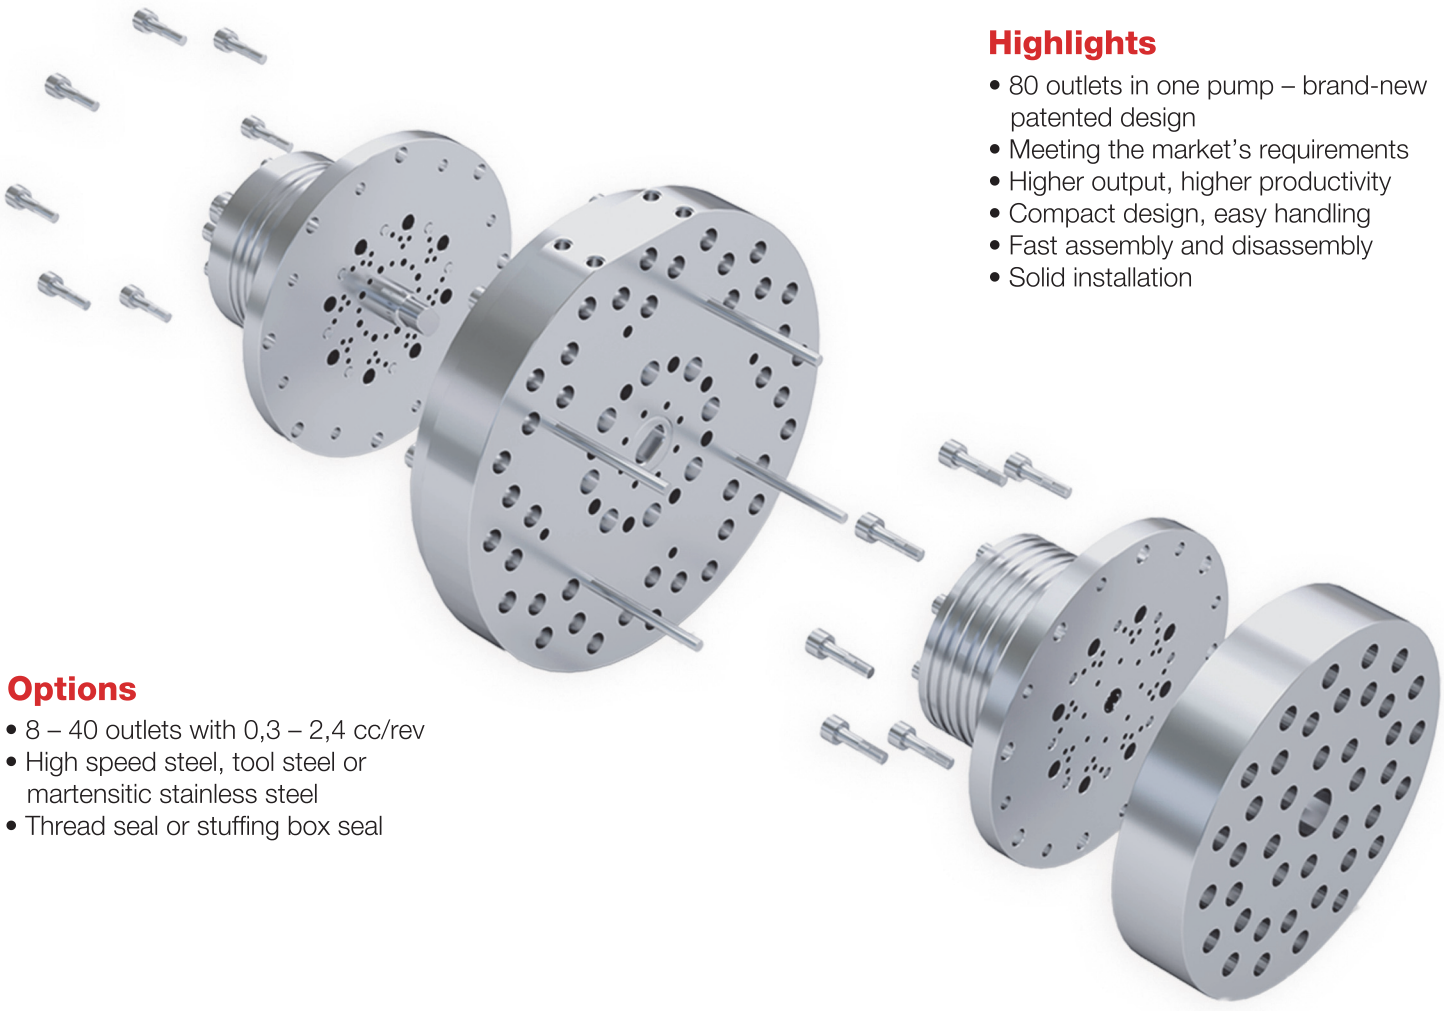

The robust spinning pumps feature the latest metering and dosing technology, with highly efficient components designed for easy operation and maintenance.

Carefully tested materials and the special "long-life" design ensure the extraordinary service life of the pumps. Proven drive designs provide additional safety.

Highlights

- 80 outlets in one pump – brand-new patented design
- Meeting the market's requirements
- Higher output, higher productivity
- Compact design, easy handling
- Fast assembly and disassembly
- Solid installation

Options

- 8 – 40 outlets with 0,3 – 2,4 cc/rev
- High speed steel, tool steel or martensitic stainless steel
- Thread seal or stuffing box seal
