

**e-save**  
comprehensive efficiency

**EvoSteam**

## Efficient Staple Fiber production:

- **Energy savings:** up to 8%
- **Water savings:** 8%
- **Waste reduction:** 50%
- **Idle running load:** -20%

**bluesign®**  
VERIFIED DATA

bluesign® VERIFIED DATA includes the verification of impact data reported by Oerlikon Neumag (water, spin preparations, thermal energy and electricity, CO<sub>2</sub>) via plausibility check of supporting records for the scope: staple fiber process Oerlikon Neumag EvoSteam (draw line excluding associated activities). Data reported by Oerlikon Neumag is rated in accordance with defined methodology 2,1 – fair, meaning partly based on assumptions and/or secondary data from similar technology (sample line).
